"Role of Youths in reforming the Society"
 (समाजवाद सुधारने युवा इनका भूमिका)

Each age group in society has its own role and this is important in many different ways. As well as most importance "Role of youth in reforming the Society." Youth is change the Society. Youths are the creator of the world, Though, they haven't got high position in the Society because of traditional culture. Role of youths and Development is two sides of a coin. It is truth and the end.

In order to consider the role of youths in Society it is helpful to first consider the overall situation in Society as this provides the context in which. Big in reforming is role of youths in the Society. If youths wants youth is developed the Society and Country. role is many more of youths in the Society. Youths is the professional activity of helping individuals groups of Communities for there social and economic welfare. A Socio Society in reforming or developing need to social workers. Social workers is does not expect any

monitory benefit for his/her services. Anuradha Koirala, Mother Teresa are some examples of social workers and youths.

Unemployment is one of the most burning problems of Nepali society. many factors like attitude of people to work, theoretical system, defective policies of the nation and rapid population growth have made people jobless. As a result millions of youths are leaving the country. most role of youths in reforming the society is great. If the country has employment said all youth jobs and easily development of society. Youths are doing all best work for change and in reforming the society. Youths are always work at social work said society being developed.

Youths in reforming the society are services on the society. Nepal is an agriculture country. Youth doing all great work who changed the society and they called as social workers. Social workers and in reforming youths always great work so big role of youths in reforming the society.
